Beck Pack Systems

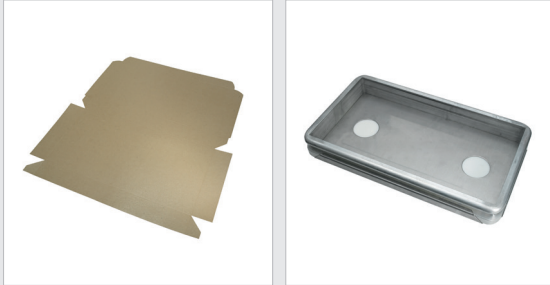

Products for block production

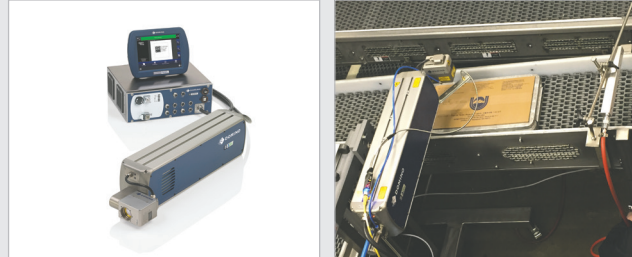

Producing Frozen Food Blocks

1 - Place Beck Liner in Beck Freezing Frame

3 - Mark your liner for 100% traceability with Beck-Lase

4 - Load packed freezing frames on trolley

6 - Use Beck Block Ejector to separate frozen block from frame

2 - Fill Beck Liner with product to be frozen

5 - Load packed freezing frames into horizontal plate freezer

Your frozen food block is now ready for master packaging or secondary processing
